### Career Objective

Motivated and detail-oriented Frontend Developer with strong foundational knowledge in HTML, CSS, JavaScript, and React.js. Passionate about building responsive and accessible web applications. Seeking a remote-based opportunity to grow in the tech industry while overcoming physical challenges through dedication and skill.

### Technical Skills

- Frontend: HTML5, CSS3, JavaScript ES6, React.js, Tailwind CSS
- Tools & Platforms: GitHub, Vercel, Visual Studio Code
- Other Languages: Java, C

### Projects

- Reestar Website

A responsive food-ordering web layout built using HTML and CSS, inspired by Swiggy/Zomato.  
Tech Used: HTML, CSS

- Udemmy Clone Website

A static clone of the Udemmy homepage showcasing course thumbnails, filters, and basic layout responsiveness.  
Tech Used: HTML, CSS

- TripAdvisor Clone (Chennai Edition)

Custom-built web pages that mimic TripAdvisor's hotel, restaurant, and activity listings with filtering options.  
Tech Used: HTML, CSS

- Weather App

A weather forecasting app using OpenWeather API and React.js with real-time city search.  
Tech Used: React.js, API Integration

- Image Gallery & Quiz App

Interactive single-page applications that display images dynamically and run quizzes with scoring logic.

Tech Used: React.js, JavaScript

- Expense Tracker & Calculator

Built from scratch using JavaScript to manage daily expenses and basic arithmetic operations.

Tech Used: HTML, CSS, JavaScript

## Education

Vijayam Science and Arts Degree College

B.Sc (Mathematics, Statistics, Computer Science)

Expected Graduation: 2025

## Certifications

- Completed 3-Month MERN Stack Bootcamp at Error Makes Clever Academy

## Languages Known

English, Tamil, Telugu

## Job Preferences

- Work Preference: Remote Only

- Job Role: Frontend Developer / Web Developer

- Reason: Physically handicapped condition; seeking remote work for better accessibility and performance.
